Rödl & Partner is a multi-disciplinary audit, legal and consulting firm dedicated to one goal. We help clients grow their business internationally, increasing the value of their global organisation.

We view each client, and each member of our firm, as individuals. A belief in teamwork, quality and personal service is the basis of our corporate philosophy.

Rödl & Partner was founded 1977 in southern Germany. Our growth has been directed by client demand, not our ambition. So, we have opened offices only where we need to look after our clients interests.
