Presentation and Q&A

On 22 March 2024, the Cyberspace Administration of China (CAC) published new regulations on cross-border data flows, which took effect immediately. These regulations relax the requirements for cross-border data transfers.

In this event you will learn about

- The cases in which a **data processor will enjoy** reduced legal obligations
- When a data processor must undergo a **security assessment by the CAC**
- **When a data processor must sign a standard contract** with the data recipient outside the mainland of China, and which further procedures must be observed

- Which **special rules apply in pilot FTZs**
- What has changed in the simultaneously **updated security assessment guide and standard contract guide**

Afterwards, enjoy the networking atmosphere at the German Centre Shanghai with snacks and beer.
