## Our presence in Türkiye

Türkiye has long been a powerhouse trade partner and a top-tier destination for investors, driven by a skilled workforce and a unique logistical advantage. With a population nearing 85 million and rising per capita income, it offers a dynamic, accessible market – particularly for products from German-speaking nations. Istanbul, as the country's cultural, financial, and commercial heart, stands out with a population of nearly 17 million. Its unique geopolitical position, bridging Europe and Asia, establishes the city as the world's only intercontinental economic hub.

One of the world's oldest settlements, Izmir is Türkiye's third-largest city, home to about 4.5 million people. Boasting the country's second-largest port after Istanbul, it serves as a global export gateway for metals, textiles, automotive, and tobacco, alongside agricultural staples like cotton, figs, grapes, olives, and olive oil.

## **Modern, Dynamic, and Resilient Economic Infrastructure**

Türkiye remains a vital economic powerhouse in the region, fueled by a young population, a strong culture of entrepreneurship, and advanced technical infrastructure.

Thanks to a skilled workforce, extensive infrastructure investments, strategic logistics, and diverse production capacity, Türkiye offers competitive opportunities for both regional and international investors. A rapidly evolving ecosystem in technology, industry, logistics, and services creates a flexible, adaptive, and solution-oriented business environment, making Türkiye an attractive market for investments of all scales.
